

Mollusks, BioBlitz 2006, Central Park, New York

Report submitted by Marla Coppelino

Phylum	Species number	Family	Genus	Species	Authority	Date	Number observed	Number collected and preserved*	Locality	Collected by	Date Collected	Remarks
Mollusca	310	Limacidae	?Lehmannia	poirieri	(Mabille		50	2	Zone 2. On base of tree and around leaf litter on ground surrounding it, Central Park, NYC	M. Coppelino, H. & T. Stevens, I. Goodsell	24-Jun-06	Light brown or yellowish with two dark bands over mantle. Det. M. Coppelino, 6/28/06.
Mollusca	311	Zonitidae	Zonitoides	arboreus	(Say,	1816)	20	1	Zone 5. On fallen tree trunk and branches near stream, just above waterfall, Central Park, NYC	M. Coppelino, H. & T. Stevens, I. Goodsell	24-Jun-06	Det. M. Coppelino, 6/24/06.
Mollusca	312	Arionidae	Arion	hortensis	Ferussac		5	1	Zone 5. Near stream, just above waterfall, Central Park, NYC	M. Coppelino, H. & T. Stevens, I. Goodsell	24-Jun-06	Slug 4, dark dorsally with bright orange foot. Det. M. Coppelino, 7/6/06.
Mollusca	313	Arionidae	?	?			10	1	Zone 5. Near stream, just above waterfall, Central Park, NYC	M. Coppelino, H. & T. Stevens, I. Goodsell	24-Jun-06	Slug 5, dark dorsally with light foot
Mollusca	314	Physidae	Physella	heterostropha	(Say,	1817)	2	2	Zone 5. Near stream, about 20 feet before waterfall, Central Park, NYC	M. Coppelino, H. & T. Stevens, I. Goodsell	24-Jun-06	Det. M. Coppelino, 6/24/06.
Mollusca	315	Limacidae	?Deroceras	?			20	1	Zone 5.	M. Coppelino, H. & T. Stevens, I. Goodsell	24-Jun-06	Slug 6, very light, nearly white in appearance. Det. M. Coppelino, 7/6/06.
Mollusca	316	Limacidae	Limax	maximus	(Linneus,	1758)	1	1	Zone 4. On leaves, on the Great Hill, Central Park, NYC	M. Coppelino, H. & T. Stevens, I. Goodsell	24-Jun-06	About 75 mm when alive. Det. M. Coppelino, 6/24/06.
Mollusca	?	Physidae	Physella	heterostropha	(Say,	1817)	2	2	Zone 5. Stream.	Aquatic Team	23-Jun-06	Det. M. Coppelino, 7/5/06.
Mollusca	?	Limacidae	?Deroceras	?			1	1	Zone 5. Leaf litter, rock wall	L. Sorkin, M. Cummins, G. Yelton, L. Johnson, R. Streichler	23-Jun-06	Juvenile; possibly same as species number 315 (slug 5), dark dorsally with light foot (but identified from alcohol preserved specimen only). Det. M. Coppelino, 7/6/06.
Mollusca	?	Zonitidae	Oxychilus	cellarius	(Müller,	1774)	1	1	Zone 5. S. of Huddlestone Arch, stream vicinity	L. Sorkin, M. Cummins, G. Yelton, L. Johnson, R. Streichler	23-Jun-06	Det. M. Coppelino, 7/6/06.

*Note: preserved specimens will be catalogued and deposited at AMNH Malacology collections, unless otherwise suggested.
